PERSONAL DETAILS

Date of Birth: 14 July 2003

Languages Known: Hindi, English & Marathi

Address: Mumbai, Maharashtra, India

PROFILE SUMMARY

Passionate and skilled web and software developer.

Proficient in HTML, CSS, JavaScript, Tailwind CSS, and Java, with hands-on experience in API integration, blockchain technology, and UI/UX design.

Experienced in building responsive, mobile-friendly applications, creating interactive user interfaces, developing secure blockchain-based chat applications, and deploying websites using Netlify.

Strong focus on problem-solving, attention to detail, collaboration, time management, and effective communication.

Project Experience

Project: E-Commerce Website – https://ecom1114.netlify.app
- Developed a fully responsive e-commerce website using HTML, CSS, JavaScript, and Tailwind CSS.
- Implemented search functionality to improve user experience and navigation.
- Used async/await to dynamically fetch product data from an API.
- Designed a mobile-friendly and intuitive user interface for better accessibility.
- Deployed the project on Netlify for fast performance and easy hosting.

Project: Story-Based Game
- Designed and built a dynamic, interactive application using Java.
- Developed gameplay that awarded points based on user decisions within the storyline.
- Integrated a graphical user interface (GUI) to enhance usability and engagement.

Project: Decentralized Chat Application
- Led the development of a secure chat platform using blockchain technology.
- Integrated smart contracts for user authentication and access control.
- Implemented end-to-end encryption and optimized blockchain for scalability.

CERTIFICATION

- Certified in **Java Beginner to advance from** Udemy
